

## The Experience

Since its inception, Shepherd's Hollow has been a place of quality and enjoyment for all guests. Shepherd's Hollow Golf Club opened in July of 2000 with the design. Shepherd's Hollow features 27 holes of championship golf, allowing us to accommodate outings of all sizes. While a fully public facility, we offer guests all the amenities of a private club including a full service restaurant and bar, top-notch practice facilities, and full locker room and shower amenities.

Golf and Business have been closely linked for over a century. It is common for executives to find comfort in the open air of a golf course in contrast to the confines of an office or boardroom when it comes to developing business relationships.

## The Shepherd's Hollow Difference

*We intended to do something special here. I wasn't concerned with 'standard playability.'*

*This courses requires thought and imagination.*

*~ Michael Bylen  
Managing Partner*
